

Timeline of My Life

Create a timeline of your life. It begins on the day you were born until today. Fill the boxes below with important events that have happened in your life. This could be a brother or sister being born, moving to a new house or school, making a best friend, going on a vacation, or anything

The diagram features a central horizontal timeline line with vertical end caps. Six event boxes are arranged around this line, with three pointing upwards and three pointing downwards. Each event box is a rounded rectangle with a dotted border and contains the following text:

EVENT

When:

Where:

What:

At the far left of the timeline is a grey box labeled "Born:" and at the far right is a grey box labeled "Today:". The timeline line has tick marks at the ends and arrows pointing to each of the six event boxes.
