

Early Settler Home vs. Today

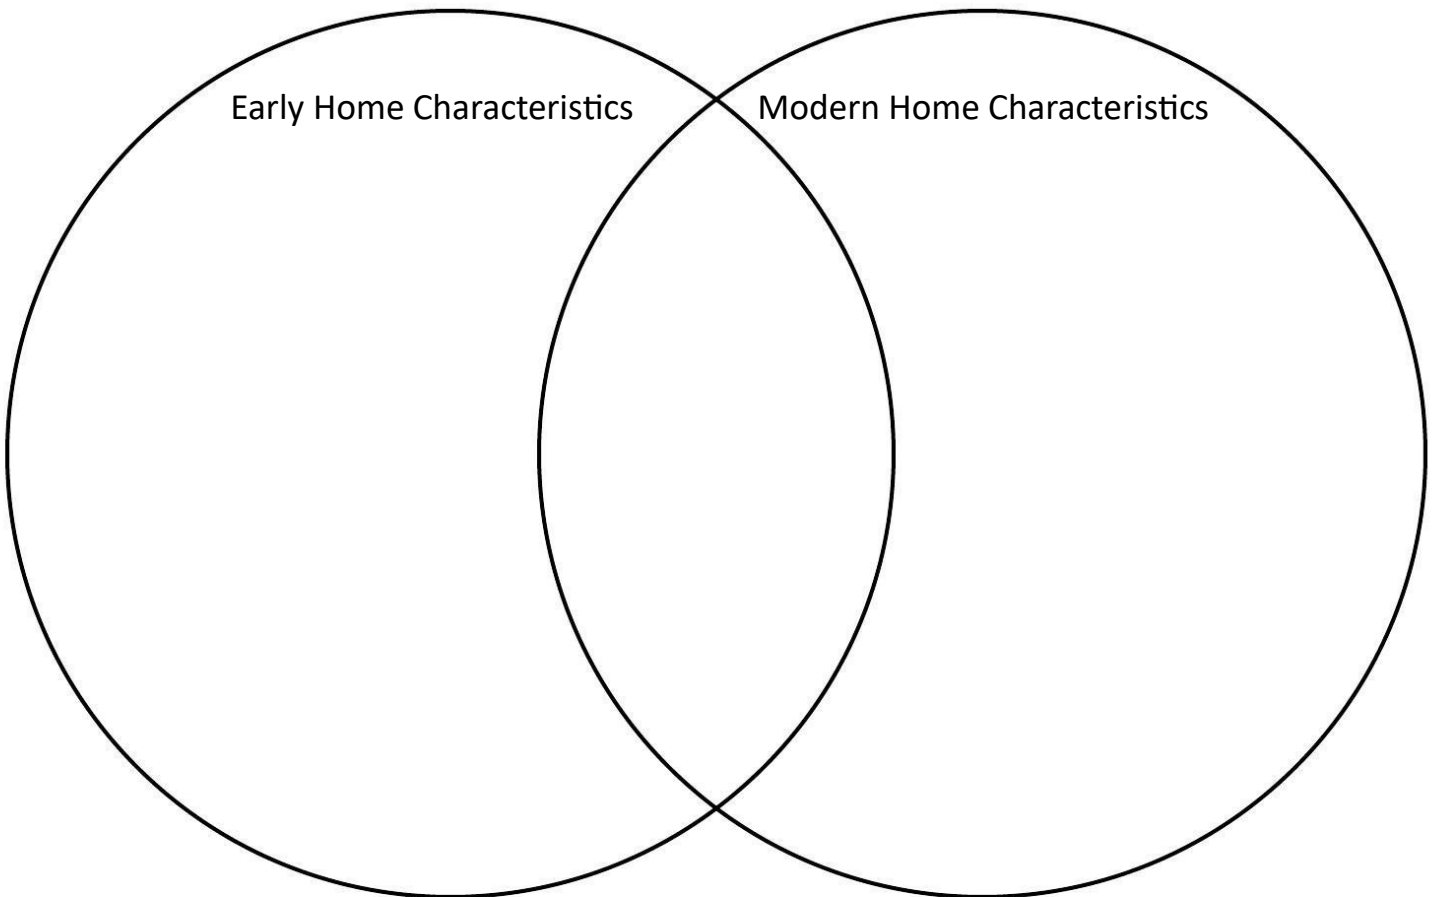

Name: _____

Using the 'Building a House in Upper Canada' handout, now it's time for you to build your own! In the right hand column, you will draw the outside and inside of an early settler home, and in the left hand column, you will draw the outside and inside of either your home, or a home in your neighbourhood. Answer questions on back side when you're finished drawing

<p>Early Settler Home: Outside</p> 	<p>Modern Home: Outside</p> 
<p>Early Settler Home: Inside</p> 	<p>Modern Home: Inside</p> 

Early Settler Home vs. Today

Once you've drawn your early settler home and your modern home, you should notice some differences between the two homes. In the Venn diagram below, put the key characteristics of the early home in the left circle, the key characteristics of the modern home in the right circle, and any similarities in the middle where they intersect.

Why do you think houses have changed so much since the early settler times? What has caused this change?
